Sign Language is a very useful skill to teach your children. It's something I've even begun to include in our home by teaching baby sign language to all our children. If you want to help your kids learn sign language, or just want to learn it yourself, you should check out all these FREE resources! Of all the foreign languages in our main school where we can expose ourselves and learn, Sign Language has been one of my favorites. Even learning only a few key phrases and signs can be very useful in the real world. When my son was in high school, he used some of these resources and was able to use most of the signs he learned while working as a cashier at the local grocery store. Learning sign language is not just an advantage for students. Think about the gift they can give to those who rely on ASL for communication. Can you start thinking about what life would be like if you were surrounded by people who didn't communicate well with you every day? How does it feel? How frustrating can it be? They can communicate with them in the language they are most comfortable with. They can cross the bridge of silence trying to pull them away from the rest of society and show them that they care and are valuable.
